First name: Karn

Last name: Stiegelmeier

Organization: EagleSummitWilderness Alliance

Title: Chair

Comments: Please follow through with the withdrawl of Thompson Divide. This is precious outdoor recreation land that is worth far more for the recreation assets and economic value as recreation, NOT for extracting climate damaging oil and gas. There has been a huge outpouring of support for this to be completed for Many years, and without the CORE Act making it through Congress, this is an essential step in the right direction. This withdrawl is Long overdue.

Thank you for taking the right steps!
