Comments: Alternative 2 seems like a good approach however I see a few issues. There need to be more ranges so they are accessible to users in many locations. If only 3 ranges are built, too much travel time will be required by potential users and target shooters will either oppose the project or not abide by the closures. Ranges should be self operated and the creation of local clubs should be encouraged to manage the ranges. Absolutely no fees or reservations should be required otherwise shooters will ignore the closures. Free use and ease of accessibility are critical to the success of this project.
