Title:

Comments: I can't believe this is still even something our representatives are considering.

I am vehemently in opposite because of its undeniable impact it'll have on our town. Tourists come here for its beauty and endless trails. If we allows a gold mine to destroy that, our businesses will suffer.

Creating mining jobs is temporary because as soon as they're finished with pillaging our PUBLIC land, they'll move onto another sad place to do the same.

The water quality, trails, wildlife, and peace of the area will be impacted in a way that's irreversible once they leave their mess.
