Title:

Comments: I am strongly against this project. We live in a beautiful area, and we'd like to keep it that way. The area proposed for drilling has been a popular recreation site for years, and we use it. Often. Whether or not the drilling impacts these things, what is the point of drilling if not to mine when/if they find something of value? This is not a fun science project, this project is at the detriment to our water, wildlife, and entire ecosystem. As well as our economy that relies so heavily on tourism and outdoor activities. I am against drilling.
