Comments: I strongly urge Secretary Deb Haaland to issue a permanent withdrawal of future Thompson Divide oil and gas leasing. I completely agree with the proposed withdrawal, except for the time limit. It is important that our country make a move to permanently remove this land from future fossil fuel extraction, not for just 20 years. 20 years from now, we should not have to spend additional time and resources reconsidering the use of this land. We must leave these fossil fuels in the ground for generations to come. We must take the time now to ensure that a future administration does not roll back this important progress toward mitigating dangerous climate change.
