Title:

Comments: I am a climber, and I want to ensure the safe and responsible use of fixed anchors and need these fixed anchors to remain in place and available to the climbing community to make this beautiful sport possible. I advocate for the responsible use in Wilderness areas and believe that fixed anchors can be a component of a sustainable Wilderness experience. Please revise your climbing guidance to reflect the practice and precedent of the more than 60 years that fixed anchors for climbing can be used, replaced, and maintained in our beloved wilderness and mountains.

Thank you
