Comments: As someone who cares about preserving our remaining wilderness while also ensure people can safely engage with/experience it, I want to ensure that the safe and responsible use of fixed anchors in national forest remains available to the climbing community. I respect and advocate for the responsible use of Wilderness areas and believe that fixed anchors can be a component of a sustainable Wilderness experience. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years-that fixed anchors for climbing can be used, replaced, and maintained in designated national forest areas.
