Title:

Comments: As a climber, I want to ensure the safe and responsible use of fixed anchors in wilderness areas, national forests and national parks remain available to the climbing community. I respect and advocate for the responsible use of Wilderness areas and believe that fixed anchors can be a component of a sustainable Wilderness experience. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years-that fixed anchors for climbing can be used, replaced, and maintained in designated wilderness areas, national forests and national parks areas.

I think the reversal of the 60+ year of precedent would have greatly negative consequences and create totally unnecessary risk.
