Comments: I am a lifelong cross country skier and avid mountain biker. I use the area around Big Hill all year.

Big Hill is the only groomed cross country skiing area in the entire state of South Dakota that has decent terrain and grooming. I help with grooming and trail clearing.

There is absolutely no reason to mess up the trails or terrain at Big Hill which undoubtedly will occur according to the articles I've seen published.

Go find another place to mess up the Black Hills. Or better yet, go to some other state.
