Comments: The rock climbing community has taught me everything I know about responsible recreating in national forest. We are among your biggest advocates. Please let us be a part of the conversation!

Restricting the establishment of new routes to "existing climbing opportunities" on non-Wilderness lands is unenforceable and will create confusion amongst land managers and climbers. Non-Wilderness climbing management policy should maintain opportunities for new anchors unless and until analyses determine climbing should be restricted to protect cultural and natural resources.

Thanks for letting us work together!

Ethan Rehkopf
