Comments: Hello,

I am opposed changing the road to restrict vehicles over 50" in width. I am a responsible and frequent user of this area. The first campsite after the proposed 50" vehicle size restrictions is one of my favorite campsites in the valley. I am aware that the road is in really poor shape shortly after the proposed restrictions and I didn't use that campsite this summer because I didn't want to do any further damage to the road. I still frequented the area on foot or via dirtbike. I think the side by sides (50" or less vehicles) are a bigger problem than full size vehicles. I have seen tracks left by them from going around the rutted out road. I have witnessed a lot of unethical, non-tread lightly behavior from this group of motorized users over the years. I think it's a shame to punish users of full sized and street legal vehicles by taking away yet another backcountry access road.

Thank you,

Josh Schumacher
