Comments: I am writing as an active US citizen, voter, community volunteer, outdoor enthusiast. I am asking you to PLEASE dedicate your service and power to putting in place updated rules which protect our remaining old-growth forests and mature trees. We have a severely low number of these trees left in our country and they will continue to be threatened by a variety of special interest groups, developers, & market forces. We need these trees now more than ever before for many reasons, not the least of which include their presence directly affects the health of our relation to nature, habitat protection, soil & water protection, keeping ambient temperatures much lower than they would be if the trees were gone, etc... please please
