First name: Chris

Last name: Michalowski

Organization: Never Summer Senders

Title: President

Comments: I am the president and a coach for the Never Summer Senders the youth climbing team for Grand County Colorado. I am writing to express my opposition to any NFS restrictions, regulation or removal of bolts and fixed anchors on public land. As a youth climbing coach I take kids climbing on public lands and we use routes that are equipped with fixed protection. One of the earliest and most famous routes in the US "to bolt or not to be" sums up what the forest service is proposing. Please allow current and future generations of climbers to self regulate as they have been for decades.
