First name: Louise

Last name: Knapp

Organization:

Title:

Comments: This land of mountains and rangeland belongs to all of us, and we should have a say about whether it is drilled, mined, polluted and used to enrich climate-killing corporations. I am opposed to this exploitation.

Of course the coalition of people fighting to protect this land (hunters, ranchers, conservation groups and local governments) would prefer a permanent ban, but 20 years is a good start!
