First name: Ryan

Last name: Shipp

Organization: South Central PA Climbers

Title: Volunteer

Comments: Dear USFS,

Restricting the establishment of new routes to "existing climbing opportunities" on non-Wilderness lands is unenforceable and will create confusion amongst land managers and climbers. Non-Wilderness climbing management policy should maintain opportunities for new anchors unless and until analyses determine climbing should be restricted to protect cultural and natural resources.

Thank you,

Ryan Shipp
