Comments: My family and I love climbing. We are so grateful for the opportunity to be in nature, disconnected, and building strength, determination and connection with each other and the climbing community. As such, we feel strongly that the following request are imperative to preserve access and safety for the climbing community:

Restricting the establishment of new routes to "existing climbing opportunities" on non-Wilderness lands is unenforceable and will create confusion amongst land managers and climbers. Non-Wilderness climbing management policy should maintain opportunities for new anchors unless and until analyses determine climbing should be restricted to protect cultural and natural resources.

Thank you,
