Comments: Hi there,

The Forest Service and BLM should close the Thompson Divide area to oil and gas leasing and mining for at least 20 years. The proposed Mineral Withdrawal would protect 225,000 acres of public lands from future oil and gas leasing, as well as mining. Benefits to air quality, wildlife habitat, watersheds, wilderness corridors, and our climate would be immediate and worthwhile.

If we continue on this route, we may even be able to survive !
