First name: Marya

Last name: Doery

Organization:

Title:

Comments: Please continue to allow fixed anchors for climbing in NFS lands. At least, consider managing the situation with local, responsible climbing groups. Fixed anchors are a superior solution to anchoring off trees, which are fragile.

I'm a climber and I tread lightly. I don't think that fixed anchors interfere in anyone else's enjoyment of our natural resources.

Thank you,

Marya Doery
