First name: timothy

Last name: fisher

Organization:

Title:

Comments: I am a 67 year old tax payer who has been climbing regularly since 1980. I spend a significant amount of my climbing time on Federal public land.

Hardware like slings, chocks, ice screws, pitons and other easily removable hardware are not fixed hardware. They are not installations. They should not be regulated in anyway.

Fixed hardware in rock are bolts and associated fasteners. In designated wilderness areas they can and should be made as invisible as possible.

Fixed climbing hardware are not installations. They should not be regulated as installations.
