First name: Alexander

Last name: Hatcher

Organization:

Title:

Comments: As a climber and a lover of wilderness, I'm writing asking to allow non-intrusive anchor material including bolts and tat/webbing in wilderness. These types of fixed anchors have saved my life many times, and are more reliable + predictable than some options. With judicious use, fixed anchor material can provide a better and safer wilderness experience for all. Please allow us climbers to retain the same access to vertical wilderness which we currently participate in!
