First name: Emma

Last name: Rockey

Organization:

Title:

Comments: I moved to Tucson, Arizona in June 2023 specifically for the access to climbing here. Removing bolts would destroy climbers' ability to safely practice our sport, and would cause more harm than good - we are passionate about the environment through rock climbing as it connects us to nature in mind, body, and spirit. Please don't negatively and severely impact that by pushing for this policy.
