Comments: Hello,

I am a strong believer in keeping wilderness wild, and throughout the decades climbing and climbers have coexisted and been able to explore hard to access legal areas with the use of small inconsequential fixed anchors. Prohibiting fixed anchors will threaten America's rich climbing legacy and could erase some of the world's greatest climbing achievements. Climbing management policy needs to protect existing routes from removal.

Please consider the impact this will have to a very large passionate community.

Thanks, David.
