Comments: Thank you for all you have done to facilitate climbing in wilderness areas over the past decades. I have benefited greatly from climbing in many varied and diverse places around the globe, and especially in California, Nevada, Colorado, and Utah.

Please work together with the access fund to create a better and safer environment for climbing to continue in wilderness areas and parks. Fixed anchors are essential, and we rely on them to explore the vertical world safely, and with little impact to the areas. I love the benefits of being able to experience physical, mental, and natural beauty in the wilderness, and it is essential that we can offer that for generations to come. Thank you for listening and understanding, I appreciate all you do!
