Comments: I am writing to support the reauthorization for outfitter and guide permits for Eustance Pack and Tack.
I went on a summer pack trip with Neil Eustance to the Chinese Wall a handful of years ago. It was an amazing experience and I would highly recommend Eustance Pack and Tack to anyone interested. I particularly appreciated Neil's commitment to teaching Leave No Trace ethics in relation to horse packing. We talked about outfitters responsibilities to be good stewards of the land and to be an example to all public land users, both hikers and private horse packers. I think Eustance Pack and Tack outfitters are a great family business to represent private outfitters to anyone they encounter in the wilderness and front country.
I would highly recommend they be reauthorized to continue educating guests on public lands.
