Comments: Please vote to allow the continuation of safe climbing, and access to our national and wilderness lands. Climbing has a well-established history in the national park and forest service system, and is a legitimate use of the wilderness that should remain accessible. Prohibiting fixed gear and removing already established anchors would create a very dangerous situation certainly causing unnecessary death. Please vote to allow the wilderness rock to continue to be open For safe climbing for our taxpayer use of our lands. Thank you.
