Title:

Comments: Is 370.I the "Y" campground? I could not pull it up on your website and I am in Europe so I cannot consult my maps. I did see it on your maps but it was not clear if it is at "Y" or at the cut. Either way I'd be fine.

You know I am a shooting advocate but not an advocate for un-managed shooting with the risk of the uninformed not shooting into a backstop and/or into dry fuels. You might have seen that we did get the Gazette to note the risk of unintended forest fires from shooting.

Once I know where 370.I is I will be your advocate in comments and know that we still have about \$11,000 to use to support this type of effort[mdash]signage, trash removal, site development.
