First name: Don

Last name: Falvey

Organization: Happy Top Summer Home Group HOA

Title:

Comments: I serve as the president of the Happy Top Summer Home Group HOA, one the tracts authorized by the Forest Service under the Recreation Residence Program. I am also a director of the National Forest Homeowners, a non-profit organization formed to serve as an advocate for the nearly 14,000 cabin owners who are part of this program. In this capacity, I am writing to support the project proposal which addresses recreational sportshooting. The Code of Federal Regulations prohibit shooting within 150 yards of cabins within this program. In my review of the project maps it appears the Happy Top tract is included within the area closed to dispersed shooting. I encourage a review of the other recreation residence cabins and tracts to ensure they are also included. There are a couple of areas near the Happy Top tract where recreational shooting has been occurring - one near the tract entrance along County Road 64, the other along the tract entrance along County Road 68. I presume these areas would be included in the areas closed to target shooting as well. Thank you for your efforts to ensure the enjoyment and safety of recreational shooting is properly managed.
