First name: Miles

Last name: Cameron

Organization:

Title:

Comments: As a climber, skier, mountaineer, hiker, and fervent lover of the backcountry, I fully support the restriction of fixed anchors in our designated Wilderness areas. Wilderness areas are some of the world's most pristine and best protected areas, and they should remain so. Allowing fixed anchors in the Wilderness invites litter, the use of mechanized equipment, and an increase in human impact to the Wilderness. Fixed anchors should be prohibited in the Wilderness to preserve these spaces.
