Comments: As a climber I want to ensure that the safe and responsible use of fixed anchors in National parks and wilderness areas remain available to the climbing community. I respect and advocate for the responsible use of wilderness areas and strongly believe that fixed anchors can be a component of a sustainable wilderness experience. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years: that fixed anchors for climbing can be used, replaced and maintained in the designated wilderness and national park areas. This
