Comments: As a climber, I want to ensure the safe and responsible use of fixed anchors in all of our wilderness and national forests remains available to the climbing community. I respect and advocate for the responsible use of Wilderness areas and believe that fixed anchors can be a component of a sustainable Wilderness experience.

These anchors are critical for safe use of these areas and allow climbers and other mountaineers to move through these places with minimal impact.

Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years-that fixed anchors for climbing can be used, replaced, and maintained in designated areas
