Title:

Comments: As a climber, I want to ensure the safe and responsible use of fixed anchors in [Wilderness/national forests] remains available to the climbing community. I respect and advocate for the responsible use of Wilderness areas and believe that fixed anchors can be a component of a sustainable Wilderness experience. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years-that fixed anchors for climbing can be used, replaced, and maintained in designated [Wilderness/national forest] areas.

The inherent safety that fixed anchors are able to ensure for rock climbers as well as the savings of taxpayer's money to use for more worthwhile projects than the management and removal of climbing bolts and anchors are two integral driving factors in keeping with the precedent of the past 60 years.
