Comments: RE: Comments on the revised Integrated Management of Target Shooting on the Pike National Forest Project.

1. I cannot believe How Incredibly Long this process has been taking. GET ON WITH IT !

Seem like utterly ridiculous time frames that this has been underway.

2. One death already, is One Death TOOOO MANY. We should go with the Strictest Proposal.

IF we Have to have a shooting location s it needs to be FAR AWAY from Residential

Areas and STRICTLY Monitored with an onsite representative at all times.

And NOISE "traveling" issues need to be seriously considered as well as Strictly Enforcing

SAFETY CONCERNS to any/all who may be in/around the proposed location s.

Any Wildfires are an Unacceptable result.

Damaging our public (or any private) lands/property is also Unacceptable.

The world is just gone tooo crazy to have anything less than permanent Strict Enforcement

on all of these concerns on behalf of the general public.
