First name: Rosemary

Last name: McKinnon

Organization: Great Old Broads For Wilderness

Title: Co-leader - NW MT broadband

Comments: I was delighted by President Biden's decision to protect remaining old growth forests. These forests are essential to helping remove carbon from the air and storing it instead in their trees. We need further clear restrictions on the logging of old growth forests on federal land.

Please move forward with the proposal to develop policies to conserve and address threats to these mature and old growth forests as a natural climate solution.
