Title:

Comments: I am a 68 year old woman who has been climbing for 20 years. I go climbing on Mt Lemmon many times each month. Without fixed bolts and anchors I could not do that safely, therefore not do it at all. Climbing is a wonderful sport, enjoyed by all ages. I love being in nature. It makes me a much happier person. I would not want to see people getting hurt or killed because they could not do the sport with bolts and anchors. Please don't remove them.

thank you,

Linda Hanson
