First name: Skyler

Last name: Pinion

Organization:

Title:

Comments: Please leave the rules about bolting and bolts/anchors alone. People will die if you put this into affect. Climbing will become more unsafe for so many people and the ability to get themselves off of the wall due to an injury or storm will be near impossible. Things are going fine and don't need to be changed in regards to bolting and anchor rules. We are sustainable climbers and do not need management or supervision in this area.
Thank you
