First name: Justin

Last name: Peacock

Organization:

Title:

Comments: I'm a climber of over 25 years and a 10-year veteran mountain rescuer.

Fixed anchors:

-They don't hurt anyone and aren't visible to other users except in extremely few circumstances.

-They allow climbers to descend climbs without leaving ugly webbing that IS visible, unsightly and can also be unsafe.

-They prevent climbers trails from being formed in places.

-They make travel, in particular rappelling, safer and faster. That means lower likelihood of accidents.

Thank you for your consideration!
