Comments: As a climber for over two decades I have climbed in many National Parks and wilderness areas. I want to ensure the safe and responsible use of fixed anchors in National Forests remain available to the climbing community. I respect and advocate for the responsible use of Wilderness areas and believe that fixed anchors can be a component of a sustainable Wilderness experience. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years-that fixed anchors for climbing can be used, replaced, and maintained in designated National Forest Wilderness areas.
