First name: Doug

Last name: Buys

Organization:

Title:

Comments: I must strongly object to this topic. This is our public land, It needs to remain open to the public, the fact that Brundage already is making money off this land and other recreationalist are not allowed in this area is almost criminal. This area should remain open to everyone, once we start allowing a business to dictate where we can, and cannot enjoy year round recreation what will stop them from expanding even further. Please stop taking our public lands, Do not let this closer happen!
