Comments: Thanks for listening to your constituents and creating a balanced plan.

As an 81 yo old observer I like to see various levels and opportunities. My daughter is moving towards an ebike because she loves biking and needs the help to keep up with the 2 elite bikers and one advanced in the family. Love to see beginners' trails for the littles. It is great to have various levels at a site to allow families to bike "together".

Yes I support this plan. MW
