Comments: Opposed to shutting down any shooting areas BUT...clearly we need to do something about the irresponsible shooters shooting at trash and leaving it behind. Steel targets for the long range shooting lanes may be one solution. Dumpsters will help but of course there will be some idiot that dumps their home trash in the dumpster instead of the expensive landfill. Give a trash bag or two and collect a fee at gate that is fully refundable when they take out one or two bags of trash and put into dumpster. Attendant could do cursory check of vehicle as they come in for prohibited items such as cases of beer bottles or tv etc. Of course paying for an attendant will cost money unless the range is only open when a trained volunteer is scheduled to work. I believe there would be many volunteers such as retirees that love to shoot wanting to preserve their right to shoot. Maybe pie in the sky but I believe there are solutions.
