First name: Remington

Last name: Turner

Organization:

Title:

Comments: I have grown up and lived in Valley County and have recreated in almost all regions across almost any form, Skiing, backcountry skiing, ATV use, Hunting, Snowmobiling, snowshoeing and hiking.

As an avid recreator (both Ski and Snowmobile) and resident in the area, I strongly oppose additional closures of Granite mountain to snowmobile use.

I have grown up skiing Brundage and am a large supporter of the organization, however the additional closure of granite mountain to snowmobilers appears to be an attempt of a large company to shut down independent public land access to advance their for profit backcountry skiing services.

I think the fire management aspects of the project are perfectly acceptable but if there are additional closures of public land it is an UNACCEPTABLE cost. I along with the majority of the (Local) community will adamantly oppose this project if the scope isn't amended.
