Title:

Comments: Please do not implament this new plan. Climbers (myselp included) have enjoyed using the mountains for ever. It's what many of us live for. Climbers need fixed anchors for safety. These anchors are a part of climbing/decending. They are used through the world. Why propose these changes/limitations here in america. Many of the effected areas (wilderness) are near busy roads and urban areas. Fixed anchors have always been around. Please don't limit climbers safety and access.

Thank you

Brian Smoot
