Title:

Comments: Fixed anchors are an essential piece of climbers' safety system and are not prohibited "installations" under the Wilderness Act. Following existing climbing policies that allow judicious use of fixed anchors for more than a half century will do more to protect Wilderness character while providing for primitive and unconfined Wilderness climbing.

It is unfair to have allowed climbing in these areas for so long, and to now take them away. I want to give future generations the opportunity to be able to do these climbs in a safe manner. Keep the outdoors for the people, and animals that inhabit these areas.
