Comments: Comments: Its shocking that the official review sees no harm by drilling! Do you drink water here?

Our water safety cannot be 100% protected species drilling is allowed. As a long time resident of Spearfish, the pristine beauty of the Northern is a cherished gem. Moreover it is sacred. I am against mining and drilling of any kind. The ONLY reason to allow drilling now, is to allow mining to destroy our beautiful Black Hills! Do not let it be so! The fiscal value to the undisturbed land and wildlife far exceeds the few benefits that mining could bring.

Please keep our water safe, our trails, our lifestyle!
