Comments: As a climber, I want to ensure the safe and responsible use of fixed anchors in National forests remains available to the climbing community. I respect and advocate for the responsible use of Forest areas and believe that fixed anchors can be a component of a sustainable Forest experience. Please revise your climbing guidance to reflect the practice and precedent of the last 60+ years-that fixed anchors for climbing can be used, replaced, and maintained in designated Forest areas. This is a bad plan that is going to risk lives, please change it. Thanks!
