First name: Sharon

Last name: Glasscock

Organization: Laurel Creek Hardwoods Inc

Title: Owner

Comments: Our town and community are the gateway to the Monogahela National Forest. We have already been hit by flooding due to lack of taking care of keeping rivers clean from rocks and dead trees. This will have more impact on flooding and also create many concerns for wildfires and tree diseases spreading. Forest management is essential to keeping a healthy forest. If the concerns are with carbon, they say wood products capture carbon which are beneficial to everyone.
