First name: Cyndie

Last name: Childress

Organization:

Title:

Comments: This land management plan should include all local Tribes, in the Pacific Northwest, not just the Federally Recognized Tribes. All Tribes should have a seat at the table and play a part in the decision-making process (CEQA & AB52) of our lands.

The local Tribes in Trinity County were not contacted by the Forest Service or BLM on this proposed plan. We have been to the meetings and with the presentations given, strongly believe the Tribes should have an active role in the management of our lands.
