Last name: Holmberg

Organization:

Title:

Comments: Please protect access and safety to new and existing climbing areas on national forest land for all generations. Removing or not allowing bolt maintenance will threaten access to historic climbing areas and safety of climbers seeking to responsibly enjoy America's forests. Please support responsible bolting of new and existing rock climbs on national park land. Engage the growing climbing community in the love and stewardship of wild places. I am asking to preserve the history of climbing across the United States and to promote the future of the sport.
