Comments: I do not think that there should be a year long or permanent closure on granite mountain.

I really don't think it is fair that it is closed for even two months. It is public land and should be used by everyone not the elite snow cat tours only.

I would like to see the two month closure go away or even be modified to snowmobiles allowed on all roads only.

I count down the day on March 16 when I can use that area.
