Comments: I thanks for taking the time to read my comments.

I'd like to get a better understanding of the reasons behind the proposed changes. But? My first thought is these decisions are made around funding.

And if it's a budget situation.

I don't see why there couldn't be an application process to install hardware.

And the fee with the application most climbing associations and climbers or route setters would be happy to fill out an application to obtain a permit for a fee.

I've been climbing for 34years in the tucson area. I know there is a huge community that would be effected and hope you can come to a solution that brings both side together.

Thank you

Jack Randall

Thank you

Jack Randall
